

Chiltern Rangers Pro Bono Policy

Preamble – Our core values

- Our founding Mission commits us to enhance natural habitats and outdoor spaces in the Chilterns through conservation, education and community engagement. We achieve this by collaborating with local communities, individuals and organisations – including businesses.
- We believe in partnering with local companies, other social enterprises and charities to improve the health and well-being of individuals, the community and of the environment.
- We are passionate about giving young people opportunities in as many ways as possible, for example, through work experience placements, apprenticeships, traineeships and more.
- We fundamentally believe that spending time in nature is good for you – and are staunch believers in the health and well-being benefits that can be gained from engaging in fun, physical activities in green spaces.

To this end, and in keeping with our status as a community interest company, we will be implementing a pro bono scheme, to which, from 2016 onwards we will allocate 10% of any surplus we make each year.

As well as offering discounted fees for our services to charities, local voluntary groups and social enterprises, we will make available the use of our tools and equipment to eligible groups, either at discounted hire rates or free of charge.

Services which we will offer on a pro bono basis include:

- practical conservation work
- environmentally friendly landscape work
- Be a Ranger half day experiences
- talks and presentations
- guided walks

How to apply for Pro-bono support

Those interested in the loan of our tools and equipment are encouraged to contact us in this regard via our website www.chilternrangers.co.uk, or if this is not possible, then to speak to our Administrator on 01494 474486. We will invite applications from the community for our pro bono services in August and February each year. Completed applications will then be considered by the Chiltern Rangers Board.
